

Marie Skłodowska Curie Individual Fellowship at URV's Centre for Climate Change

Do you have a great research idea in the fields of climate change detection and observation, climate data rescue or data quality control and homogenisation?

Do you have a strong publication track record and a passion for innovative, high-quality research?

Do you want to conduct your own project at a well-connected centre in a beautiful part of Europe?

Then we are looking for you!

The [Centre for Climate Change \(C3\)](#) at [University Rovira i Virgili \(URV\)](#) in Tortosa, southern Catalonia is one of Europe's leading centres of historical climatology, data quality control and homogenisation and the development of long-term observational climate datasets.

C3 and URV now calling for expressions of interest for the prestigious 12–24 month H2020 Marie Skłodowska Curie Actions – Individual Fellowships. MCSA-IF provide very competitive funding for excellent, established researchers to conduct their own project, including generous travel support and family allowances.

C3 and URV can provide you with experienced support and guidance in the development and submission of your MSCA-IF application.

If you are interested in applying for this exciting opportunity, please send the following to Dr Linden Ashcroft (lindenclaire.ashcroft@urv.cat) by **10 June 2016**:

1. A detailed curriculum vitae, including a list of publications;
2. A one page cover letter detailing your research interests and experience
3. An abstract of your planned MSCA-IF research proposal (max 250 words).

To be eligible, you also need to be:

- In possession of a PhD or with at least 4 years of research experience (full-time equivalent)
- Of any nationality, as long as you have not worked or studied in Spain for more than 12 months since September 2013

More information on the Marie Skłodowska-Curie Individual Fellowships is available on the [EU-MCSA website](#).
